

Errata Sheet (September 2023) for the document titled ORD Human Health Toxicity Value for Perfluoropropanoic Acid (CASRN 422-64-0 | DTXSID8059970), EPA/600/R22/042F

July 2023: EPA is releasing an errata for the ORD Human Health Toxicity Value for PFPrA to correct a transcription error in the BMDL for relative liver weight in adult male rats.

Page(s)	
18	A correction was made to Table 6 (Candidate PODs for Derivation of the Chronic RfD for PFPrA). The BMDL for increased relative liver weight in adult male rats was corrected to 6.3 mg/kg-d. The corresponding POD _{HED} was changed to 1.6 mg/kg-d.
18-19	Call-outs to the POD _{HED} were changed to 1.6 mg/kg-d.
19	A correction was made to the calculation of the Chronic RfD to use the POD _{HED} of 1.6 mg/kg-day, resulting in a Chronic RfD of 0.0005 or 5×10^{-4} mg/kg-day.
21	A correction was made to Table 9 [Summary of the Noncancer Reference Values for PFPrA (CASRN 422-64-0)]. The Reference Value and POD _{HED} were corrected to 0.0005 mg/kg-d and 1.6 mg/kg-d, respectively.

September 2023: EPA is releasing an addendum to the errata for the ORD Human Health Toxicity Value for PFPrA to update the disclaimer language.
