Attachments: New Data and Analyses on Chloroprene (DPE/Ramboll Presentation)

### Summary:

- Patrick Walsh (DPE), Robinan Gentry (Ramboll), and Harvey Clewell (Ramboll) update EPA on current DPE/Ramboll actions related to chloroprene (see *New Data and Analyses on Chloroprene* presentation).
- Ramboll is actively responding to peer review comments on their PBPK model. Following the revision of the model, Ramboll will revise their accompanying report.
- The DPE Request for Reconsideration (RFR) was withdrawn in March 2021. DPE is considering submitting a new Request for Correction (RFC) on the 2010 IRIS Assessment of Chloroprene.
- EPA notes any RFC submitted would go through the same process managed by EPA's Office of Mission Support (OMS).
